

The portfolio analysis tool allows you to see how and where your portfolio is invested. You can analyse your entire portfolio, an individual account or specific holdings from different accounts as well as stocks you are thinking about buying. The analysis of the funds you hold is based on information given to us by the fund managers.

Your portfolio analysis report

	Country	Region
UK		48.7%
North America		40.1%
Non-Classified		8.9%
Property		1.7%
Developed Europe - Excl UK		0.6%
Cash and Equivalents		0.1%

About X-ray regional allocation

This allows you to drill down the information on the above map to see the proportions invested in individual countries. The location of a company is, for this purpose, determined by the country in which its shares are listed.
